Good morning,

Need help with yesterday's problem? [Start getting solutions.](#)**Today's Byte**

Given the reference to a binary search tree, return the k^{th} smallest value in the tree.

Ex: Given the following binary search tree and value

k ...

```

      3
     / \
    2   4, k = 1, return 2.

```

Ex: Given the following binary search tree and value

k ...

```

      7
     / \
    3   9

```

\
5, k = 3, return 7.

Thanks,
The Daily Byte

Need help negotiating your offer? Chat with former tech recruiters who'll guide you on exactly what to say to get you paid more. Get negotiation help from [levels.fyi](#).
