Subject: Zigzag Traversal

The Daily Byte

Good morning,

Need help with yesterday's problem? Start getting solutions.

Today's Byte

Given a binary tree, return its zig-zag level order traversal (i.e. its level order traversal from left to right the first level, right to left the level the second, etc.).

Ex: Given the following tree...

```
    1
   / \
  2   3
return [[1], [3, 2]]
```

Ex: Given the following tree...

```
    8
   / \
  2  29
 /  \
```

```
    3    9  
return [[8], [29, 2], [3, 9]]
```

Thanks,
The Daily Byte
