Subject: Root to Leaf Paths

The Daily Byte

Good morning,

Need help with yesterday's problem? Start getting solutions.

Today's Byte

Given a binary tree, return a list of strings containing all root to leaf paths.

Ex: Given the following tree...

```

      1
     / \
    2   3
return ["1->2", "1->3"]

```

Ex: Given the following tree...

```

      8
     / \
    2  29
   /  \
  3    9
return ["8->2", "8->29->3", "8->29->9"]

```

Thanks,
The Daily Byte
