Subject: Correct Capitalization

The Daily Byte

Good morning,

Need help with yesterday's problem? Start getting solutions.

Today's Byte

This question is asked by Google. Given a string, return whether or not it uses capitalization correctly. A string correctly uses capitalization if all letters are capitalized, no letters are capitalized, or only the first letter is capitalized.

Ex: Given the following strings...

```
"USA", return true  
"Calvin", return true  
"compUter", return false  
"coding", return true
```

Thanks,
The Daily Byte
