## The Daily Byte

Good morning,

Need help with yesterday's problem? Start getting solutions.

### Today's Byte

Given a binary tree, returns of all its levels in a bottom-up fashion (i.e. last level towards the root). Ex: Given the following tree...

```

      2
     / \
    1   2
return [[1, 2], [2]]

```

Ex: Given the following tree...

```

      7
     / \
    6   2
   / \
  3   3
return [[3, 3], [6, 2], [7]]

```

Thanks,  
The Daily Byte
